# Neeraj Neeraj

**Full Stack Developer**

Canada | **437-970-5609** | **neeraj.webdev26@gmail.com** | **linkedin.com/in/neerajneerajweb/**

## SUMMARY

I'm a **Full Stack Developer** with **1.5+ years** of experience building web applications that are both functional and user-friendly. I've worked with technologies like *React, Node.js, Next.js,* and *MongoDB,* developing everything from smooth, responsive front-end interfaces to secure, scalable back-end systems. I'm also skilled in translating design concepts into clean, interactive UIs using *Figma.* I've focused on delivering secure, high-performance applications with authentication and deploying them on platforms like AWS and Vercel. Currently, I'm diving deeper into *Cloud Data Management* to broaden my expertise in cloud technologies.

## TECHNICAL SKILLS

Design tools: **Figma, Balsamiq |** Languages: **HTML, CSS, JavaScript, TypeScript |** Frameworks: **Front-end: React, NextJS, React Native (Expo), Back-end: Node, Express |** Databases: **MongoDB, SQL |** ORM: **Prisma, Drizzle** | Libraries: **Tailwind CSS, Material UI, Shadcn UI |** Version control: **Git |** Deployment: **Vercel, AWS**

## EDUCATION

**Conestoga College,** *Cloud Data Management* | Kitchener, CA                                    **Aug 2024**
- **GPA:** 3.02/4
- **Relevant Coursework:** AWS, SharePoint, WordPress, M365, PowerBI, Tableau etc.

**Dayananda Sagar University,** *Bachelors in Computer Science* | Bangalore. IN                **Aug 2022**
- **CGPA:** 7.55/10
- **Relevant Coursework:** Data Structures and Algorithms, Artificial Intelligence, Machine Learning, Databases, Application Development, Software Design and Development etc.

## WORK EXPERIENCE

**Full Stack Developer,** *Secpod Technologies* | Bangalore, IN                        **Jan 2022 - Aug 2022**
- Successfully resolved multiple bugs using **JavaScript**, enhancing software stability and user experience.
- Seamlessly integrated diverse features, enriching product functionality.
- Designed engaging and intuitive web pages using **Figma**, optimizing user interaction and visual appeal.

**Software Engineer,** *Digitran Solutions* | Bangalore, IN                        **Mar 2021 - Jan 2022**
- Developed and deployed a full-stack web application using **React**, **Node.js.**
- Built responsive user interfaces by translating **Figma** designs into functional front-end components.
- Integrated **APIs** and implemented **JWT** authentication to ensure data security and improve performance.

## PROJECTS

**Portfolio websites**                                                                                      **2024**
**https://codewithnik.vercel.app** || **https://neerajportfolio-eight.vercel.app**
*Nextjs, Mongodb, Node, Prisma, Shadcn UI, Clerk, Postman*
- I built multiple portfolio websites.
- These portfolio websites serve as a personal showcase, allowing visitors to learn more about the individual, view their skills, and get in touch with them easily.
- These sites are designed to be both visually appealing and highly functional, ensuring a smooth user experience for potential employers and collaborators.

**Appointment Booking & Blog website**                                                                **2024**
**https://ravi-orthodontics.vercel.app** || **https://mymentalhole.vercel.app**
*Nextjs, Mongodb, Node, Prisma, Shadcn UI, Clerk, Postman*
- I developed appointment booking and blog website.
- These platforms enable writers to post articles, stories, quotes and also enable dental patients to book an appointment.
- These websites are designed to be user-friendly and interaction. They provide a better way to engage with the people.
